

Wireless Driveway Alarm Perimeter Protection

Solar Powered Photoelectric Dual Beam Sensors

NOW the most ADVANCED WIRELESS Beam on the Market*

Ideal for farms, lifestyle properties, driveways, gates, sheds and utility areas

- Solar powered beams with battery backup
- Two synchronized beams for added reliability
- Small discrete all-in-one self-contained unit
- Activated by breaking both beams
- Does not require a heat source for activation
- Four zone receiver with four trouble zones
- Multi zone alarm panels
- Optional Chime or Counter on JN-VR-4P
- RF transmission up to 500m in open space*
- Suitable for temporary or long-term protection

Multiple RF Transmission Signals Sent

- Open Signals (beam interrupted)
- Closed Signal (beam restored)
- Supervision Signal sent every 3.45 hours (Heartbeat)
- Tamper Signal
- Low Battery Signal
- Optional JN-P01 Add on Solar Cell for shaded areas
- Optional JN-RL-V - Repeater for longer transmission ranges
- A range of models: 20, 50, 100, 200m (outdoor)
- 12 Month warranty
